Summary

Detail-oriented Full-Stack Developer with hands-on experience in building scalable web applications using React.js, Django, and PostgreSQL. Skilled in crafting efficient APIs, managing complex databases, and optimizing system performance. Known for delivering clean, user-focused solutions with a strong balance of front-end finesse and back-end strength. Passionate about building tech that solves real problems and scales with growth.

Technical Skills

- **Programming Languages:** C, C++, Python, JavaScript
- **Front-End Technologies:** React.js, HTML, CSS, Bootstrap, Tailwind CSS, Context API, Redux Toolkit, TanStack Query, React Hook Form, Styled Components
- **Back-End Technologies:** Python, Django, DRF, Web Sockets, API Integration
- **Architectures & Patterns:** MTV, Clean Architecture
- **Database Management:** MySQL, PostgreSQL
- **Version Control:** Git, GitHub
- **Tools & Platforms:** Visual Studio, Postman, Google Maps

Soft Skills

Problem Solving | Communication | Teamwork | Time Management | Adaptability | Continuous Learning

Work Experience

Crystal Solution

Associate Software Developer | Mar 2024 - Present

- Developed and optimized **RESTful APIs** using **Python Django**, improving performance and response times.
- Implemented secure authentication and authorization mechanisms with **JWT**.
- Built responsive and dynamic UI components using **React.js**, **Redux**, and **Tailwind CSS**.
- Integrated frontend and backend systems for seamless data flow using **RESTful APIs**.
- Designed and delivered full-stack solutions including Admin Panels, CRMs, and POS systems.

Ebryx

Web Development Intern | Sep 2023 – Nov 2023

- Developed interactive web pages to enhance user experience.
- Gained hands-on experience in front-end development.

Projects

- **Customer Relationship Management System** - Served as a **React.js Front-End Developer**, leading the development of an intuitive accounting interface to streamline sales tracking and transaction management. Focused on building responsive, component-driven UIs to improve user experience and operational efficiency.
- **Diet Recommendation System** - Developed the front end of an **AI-powered** diet recommendation app using **React.js**, integrating **Hugging Face APIs** for BMI analysis and condition-based meal plans. Also implemented medical report viewing for a complete user experience.
- **Pet App** - Developed a comprehensive pet care platform with features for lost & found reporting, pet adoption, and locating nearby veterinary services. Worked as a **Full-Stack Developer**, building the front end using **React.js** for a responsive UI and implementing the back end with **Django & PostgreSQL** to manage user data, listings, and other services
- **E-Commerce** - Built a **Full-Stack E-Commerce** application with secure user authentication, product listing, and cart functionality. Worked on both front end and back end using **React.js**, **Django**, and **MySQL** to ensure a responsive and efficient shopping experience.
- **Data Management System** - Worked as a **Full Stack Developer** on a **Data Management System** using **React.js**, **Django & PostgreSQL**. Built responsive UI components with features like filtering, sorting, and real-time updates. Integrated **RESTful APIs** for dynamic data handling and implemented modules for inventory management, reports, and ledgers. Ensured performance optimization, cross-browser compatibility, and efficient database operations.

Education

Minhaj University Lahore

Bachelor of Science in Computer Science | Jan 2020 – Feb 2024

Certifications

- HTML, CSS, JavaScript - **Coursera**
- React JS, Python Django – **Udemy**
